Subject: daccord service update 1.6.1

## Service update daccord 1.6.1 available now

**The new service-update of daccord version 1.6 contains besides performance optimizations and bugfixes also a few actualizations in the admin frontend. A user account's access right assignments can now very clearly be displayed, which before was only possible through reports. Moreover the number of search results is shown, so you can easily see how many user accounts and access rights have been imported.**

G+H Systems recommends the installation of daccord 1.6.1. For clients with update protection the new version can be downloaded through our update channel.

For more information don't hesitate to contact your account manager or use info@daccord.de.

**To daccord:**
daccord is an access governance product of G+H Systems, located in Offenbach, Germany. The solution supports companies to gain transparency in terms of all internal IT authorities.
