

DACCORD CONVINCES

And our customers will tell you why

REISEBANK

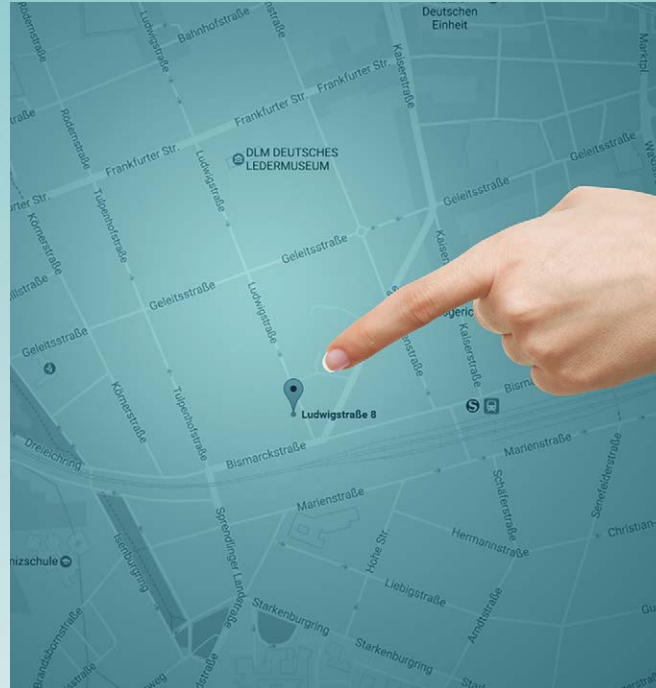

»For us, daccord is a strategic application to which all systems can be connected in order to achieve a continuous control of all granted permissions.«

Patrick Baumann, IT application and project manager

TRUST IS GOOD –
DACCORD IS BETTER

With this software you control
access permissions

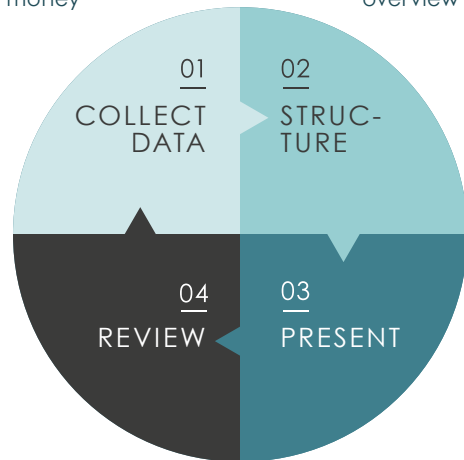

SUCCESS IN FOUR STAGES WITH DACCORD

This is how you will gain control over all permissions

FOUR STAGES

» With **daccord** you will save time and money

» **daccord** gives a great overview

» **daccord** complies with all statutory requirements

» **daccord** provides well-founded control

WHAT MAKES DACCORD SO SPECIAL

With **daccord**, we provide everything for a comprehensive, practical and sustainable solution when it comes to the topic of access permissions.

- **Transparency and control at your fingertips or automatically**
Target-performance comparisons show who is authorized to do what and who might be over- or under-authorized.
- **Meet compliance requirements continuously**
We offer recertification processes that also work in everyday situations.
- **Identify risks early and inform accordingly**
Set up any risk definition for which you will receive a warning should it be violated.
- **Comprehensible for the departments**
Create and use role models to depict and evaluate permissions.
- **Easily include responsible persons**
Use the easy, personalized views for different responsibilities.
- **Directly initiate correction processes**
Use stored actions to correct detected deficits.

TRYING BEATS DISCUSSING

Use **daccord** for four weeks for free

OUR OFFER FOR YOU:

- **Four weeks of software use:**
Use **daccord** for four weeks and let the software's benefits speak for themselves.
- **Two days of service:** We will connect your desired system to **daccord** and train you in how to work with the software.
- **Review date:** After completing the test phase, we are happy to meet with you to discuss the results.
- **Generated data:** You may use any generated data also after expiration of the 4-week test phase in an unlimited capacity.
